- Learn at your own pace
- Available anywhere over the Web
- Affordable
- Potential college credit
- Learn from the pros

## Learn from the Experts

Benefit from the knowledge of expert certified corporate trainers who bring their extensive industrial experience and Mastercam mastery to each lesson. Courseware is delivered in over 180 videos using proven industrial techniques. This format lets you learn at your own speed, reviewing all of the tips and tricks to unleash the power of Mastercam.

Check your progress and comprehension with the self-assessment feature. At the completion of the class you will receive a certificate of completion with your test scores. This courseware and assessment has been reviewed and approved by the Mastercam Certification Committee, an independent board that includes some of the best instructors/trainers in the country.

## More Information

The Mastercam University courseware is available from our network of authorized Mastercam Resellers. To find a Reseller near you, or for more information on courseware specifics and Mastercam Certification, please visit our website at [www.mastercam.com/MastercamU](http://www.mastercam.com/MastercamU).

## The Learning Process

In this application-based training, you learn Mastercam by designing and programming toolpaths on real industrial parts. Important concepts are covered that show you how to program more efficiently. For example, you learn how to program quickly and effectively, how to apply multiple set-ups, and how to select the best toolpath strategy for fast runtime and superior surface finish.

## College Credit

Many colleges are adopting the Mastercam U online courses to enhance their training, keeping it up-to-date and more robust. College credit may be obtained through some of these schools. Please consult your local authorized Mastercam Reseller for a list of participating colleges.
